  - \* Strong professional development for teachers focused on best classroom practices
  - \* Administration focused on learning
  - \* High personal and professional standards for recruitment of faculty
  - \* Clear communication with stakeholders
  - \* A focus on meeting the needs of all students admitted to the school
  - \* Maintenance of accreditation
- 2. Truth. We believe in the existence, accessibility, and applicability of transcendent truth.** Students should be able to articulate and defend an appropriate view of truth.
- 3. Character/Integrity. We desire for all students to become people who consistently do right in thought, word, and action.** Therefore, we emphasize service, character development, a strong work ethic, perpetual growth, loving interaction with others, and an appropriate level of independence.
- 4. Relationships. We desire to be a community where all are nurtured and appreciated.** All cultures are respected, all people are valued, and students are encouraged and supported individually.
- 5. International impact. We desire for our students and faculty to make a positive, lasting impact in any context in which they find themselves.** Students are trained to be good citizens and contributing members of their communities both now and in the future, even if that means crossing cultural barriers.
- 6. Education. We believe that education is most effective in the context of a clearly defined curricular approach, strong parental support, and international emphasis.** Therefore, we value the following:
  - A partnership between the school and the parents
  - An emphasis on developing the whole child
  - Preparation of students for college
  - A North American curriculum with international elements
  - A focus on mastery of a core body of knowledge and on the discovery of additional knowledge, seeing both within the framework of transcendent truth
